

**This is a compilation of every boy who has ever finished in the top 10 of any group championships since the public group classifications were established in 1946. From 1946 to 1956, there were two public races, which were expanded to three from 1957-1965 and the current four from 1966 to date.**

**The non-public divisional races consisted of one division from 1946-1965 with the exception of 1951-1953 and 1955-1958 when the non-publics were placed in the public school races. Since 1966 there have been two non-public races with the exception of 1972-1978 when there were three.**

**Special credit must be given to Barry Frasco whose exhaustive year-by-year research of state group and sectional cross-country filled in lots of the gaps I found in my own research since my first cross-country assignment in 1974. Thanks Barry. I've never met you but I feel we are long-time friends.**
